

Type of lamp: H4

Pack of: 2 12 V,60/55 W More light

12342XV+S2

Take performance to the X-treme

Up to 130% brighter light

Philips X-tremeVision car bulbs are among the brightest you can buy. They outshine most other car lamps with up to 130% more brightness and a superior beam length. So you see further, react faster and drive safer.

High amount of light, high performance

- See further and react faster with up to 130% more brightness
- One of the brightest bulbs: ultimate light performance
- The safest, road-legal headlights

Increased brightness

- · Significantly whiter light to improve comfort and safety
- Great contrast for a comfortable drive
- Exceptional beam quality and performance

Best-in-class lifetime

- Performance means more light and longer lifetime
- A lifetime of safety so you can see and be seen

Highlights

Significantly whiter light

The bright white light is significantly whiter than standard headlights. The Philips patented Gradient Coating™ technology produces a more powerful light, so you can enjoy one of the brightest lighting performances and a highly comfortable night driving experience.

A lifetime of safety

Every potential failure of a spare part is a risk for you and your vehicle. This is especially true for headlights. Every broken headlight lamp reduces visibility and safety for you and the oncoming traffic. Philips X-tremeVision is optimized for a long and reliable lifetime. So you can see and be seen for longer than with any other high performance lamp.

Exceptional beam quality

With a combination of more light and increased color temperature, Philips X-tremeVision qualifies as one of the best performance beams in the halogen segment.

Extra light, extra lifetime

Philips X-tremeVision headlights are made for outstanding performance, producing up to 130% brighter light, without compromising on the lifetime. With up to 450 hours*, Philips X-tremeVision's lifetime is significantly higher than competitor solutions in the more light category. (*H4 and H7 tested at 13.2V standard voltage)

Great contrast drives comfort

The increased color temperature in Philips X-tremeVision headlights (available in H1, H4 and H7) allows your eyes to focus better and perceive contrasts in the far distance. This makes driving after dark a far more comfortable and safe experience.

See further, react faster

Perfect illumiation is especially important in the distance - usually between 75-100 meters in front of your vehicle. With Philips X-

tremeVision car bulbs you can see up to 45 meters further, giving you 2 seconds more reaction time. Philips X-tremeVision boosts your visibilty with up to 130% more light on the road. This helps you recognize obstacles and any potential dangers earlier than with any other halogen headlamp.

One of the brightest bulbs

With its optimized high-precision fillament geometry, up to 13 bar high pressure gas filling, high precision coating and high quality UV-Quarz glass, Philips X-tremeVision headlights set a new milestone in automotive lighting. They are engineered for the ultimate performance and uncompromising visibility.

The safest legal car lights

Philips X-tremeVision is by far the safest, easiest and most efficient way to upgrade your car headlights within legal parameters. They are fully ECE certified.

Specifications

Product description

- Technology: Halogen
- Type: H4
- Range: X-tremeVision
- Application: High beam, Low beam
 Homologation ECE
- Base: P43t-38
- Designation: H4 X-tremeVision

Electrical characteristics

- Voltage: 12 VWattage: 60/55 W

Ordering information

- Order entry: 12342XV+S2Ordering code: 22109428

Packaging Data

- Packaging type: S2EAN1: 8711500221094
- EAN3: 8711500221100

• Width: 5.3 cm

• MOQ (for professionals): 10

Packed product information

• Height: 13.3 cm • Length: 11.0 cm

• Pack Quantity: 2

- Net weight per piece: 21.5 g

Marketing specifications

- Expected benefits: More light
- Product highlight: Up to 130% more brightness

• Life time: Up to 450 h

Light characteristics

- Color temperature: Up to 3500 K
- Lumens: 1650 ±15%/1000 ±15% lm
